DEFINING NEW PROCESSING PARAMETERS IN LASER CUTTING

including the Swiss company Bystronic, gives recommended cutting parameters for certain types of materials The paper presents the process of defining new parameters for cutting parts made of fireproof steel (steel AISI 314) for which the recommended cutting parameters have not been provided by laser manufacturer

PS Manual-Preventive and Predictive Maintenance

The basic difference between solid solutions and quick fixes is the difference between investing in the future and mortgaging it To invest too little in the pursuit of "Reliability Excellence" only leads to failure Like any investment, the Maintenance Investment precedes the Proactive Return
