of fear and anxiety and the behavioral and physiological symptoms that accompany these subjective experiences. A NOTE ON TERMINOLOGY The terms "fear" and "anxiety" are used in many ways. Consider fear. Most often it refers to a subjective state, a feeling that ...

Social Psychology and Fear of Terrorism

Social Psychology and Fear of Terrorism We argue that an individual's general view of human nature is a crucial determinant of her fear of terrorist attacks. Those people who have a negative view of human nature, ie, believe that people cannot generally be trusted, are more likely to believe that a terrorist attack will take place in their

Fear, Anger, and Risk - Greater Good

Fear, Anger, and Risk Jennifer S Lerner Carnegie Mellon University Dacher Keltner University of California, Berkeley Drawing on an appraisal-tendency framework (J S Lerner & D Keltner, 2000), the authors predicted and found that fear and anger have opposite effects on risk perception. Whereas fearful people expressed

Understanding phobias understanding

Understanding phobias What is a phobia? A phobia is an extreme form of fear or anxiety triggered by a particular situation (such as going outside) or object (such as spiders), even when there is no danger. For example, you may know that it is safe to be out on a balcony in a high-rise block, but feel terrified to go out on it or even enjoy the view.

Parsing Fear: A Reassessment of the Evidence for Fear ...

In this review, the evidence for fear deficits in psychopathy will be assessed from multiple perspectives. First, we will highlight the role of fear in the conceptualization of psychopathy from a historical perspective. With this step, we intend to elucidate whether theorists have consequently emphasized fear as a key feature of psychopathy.
